PROFESSIONAL
EXPERIENCE

- Sales Engineer | Romstal IMEX SRL | Brasov

Nov 2025 – Present

Managing end-to-end sales operations, including quotes, proforma invoices, and order processing via SAP Fiori, alongside active CRM management.
Responsible for monitoring and coordinating store stock levels to support the sales agents team and ensure seamless product availability.
- DARWIN TECHNOLOGIES | Connectivity Engineer | Cluj-Napoca

Jul 2025 – Oct 2025

Designed and managed integrations on the Boomi iPaaS platform, connecting multiple enterprise systems
Set up secure data transfers using SFTP, PGP encryption, and SSH key rotation
Configured SAML-based SSO for streamlined authentication across service
- ARIMINUM REMIN | Intern Frontend Developer | Cluj-Napoca

Mar 2023 – Apr 2024

Built web applications using React, Next.js, and TypeScript with REST API integration
Created responsive interfaces with Tailwind CSS and Bootstrap 4 for desktop and mobile
Wrote automated tests with Jest and React Testing Library to maintain code quality
Set up Docker containers for consistent development environments
Worked on full-stack features using Python/Jinja templates, jQuery, and Go backends
- SELF-TAUGHT DEVELOPMENT | Personal Learning | Cluj-Napoca

2022 – 2023

Learned TypeScript, React, and modern CSS (Tailwind, Flexbox, Grid) through online courses and building projects
Debugged API integrations and learned to handle HTTP status codes
Worked with databases: wrote SQL queries, understood table relationships, and connected frontend to backend data
Built personal projects to practice connecting frontend interfaces to REST APIs

TECHNICAL SKILLS

Core Stack: React 18, Next.js 14, TypeScript, JavaScript ES6+, Tailwind CSS
Frontend: HTML5, CSS3, CSS Modules, shadcn/ui, Bootstrap 4, Responsive Design, CSS Grid/Flexbox
State & Routing: Redux Toolkit, React Query, React Router, Next.js App Router
Testing: Jest, React Testing Library
Backend & APIs: REST, GraphQL, Axios/Fetch, MySQL
Tools: Git/GitHub, Vite, Webpack, VS Code, Chrome DevTools, Postman
DevOps: Docker, CI/CD, SFTP, SSH, SAML SSO, Boomi iPaaS

PROJECTS

Remax.md Real Estate Platform

Commercial real estate marketplace and portal for the Moldovan market.

- Built a responsive real estate platform utilizing a Python backend, WordPress for content management, and a Bootstrap/jQuery frontend.
- Integrated the OpenStreetMap API to deliver dynamic property location visualizations and interactive geospatial features
- Optimized web performance and SEO metrics using Google PageSpeed Insights while leveraging Docker to containerize environments for reliable deployment.

Romstal Companion App

A web utility or tool designed to manage, decode, or automate data processing for Romstal-related product codes or configurations.

- Developed a specialized utility tool to automate the lookup, decoding, or management of industrial/product code datasets.
- Optimized data processing workflows to improve efficiency and minimize manual entry errors.

Quin69 Playlist Tracker

A real-time web application that tracks, logs, and displays viewer song requests from the live chat logs of Twitch streamer Quin69.

- Built a dynamic web application that tracks and compiles real-time chat-requested music playlists from a high-traffic Twitch stream.
- Integrated external chat logging APIs to continuously parse and update live queue data for hundreds of concurrent users.
